New detached A4 villas with private pools in the Desenzano del Garda countryside.

Close to the city, convenient to all amenities and the motorway exit on the outskirts of Desenzano del Garda, a resort of approximately 37,000 square meters is perched on a green hill in a protected area with video surveillance. The area is known as "Little Tuscany" because the endless vineyards that rise and fall from the surrounding hills and the tranquility of the location are reminiscent of the Tuscan atmosphere.

Lots of varying sizes are available, with a variety of designs to choose from (single-story, two-story, modern with a flat roof, or classic with a traditional roof). The attached photos show some examples of villas already built and inhabited at the Resort.

The house exceeds the "nearly zero energy" standard, producing more energy than it consumes, guaranteeing living comfort and long-term value.

The only shared areas will be the entrance gate, the internal access roads to the villas, and the outdoor lighting; each home will be fenced and have a private garden and pool.

The villas can be designed both externally and internally, customizing them according to the client's tastes and needs. A professional will assist you in perfecting the project.
High quality standards of construction and finishes.
The solutions adopted for the home's systems (underfloor heating, ducted cooling, and photovoltaic panels) are decidedly designed with energy savings and superior living comfort in mind.

The villas are delivered turnkey, complete with landscaped gardens with automatic irrigation, an alarm system, and a swimming pool with a shower.
Production time 1 year.
