DESENZANO DEL GARDA - VILLA OLYMPIA GROUND FLOOR APARTMENT WITH LAKE VIEW (AP. No. 2)

Ref: LB-031-71

In the heart of Desenzano del Garda, between the lake and the historic center, a luxury residential complex called "Villa Olympia" is being built.

The project involves the renovation of the historic residence from the early 1900s, characterized by its magnificent exclusive location and lake view.

The prestigious Villa will house 20 residential units, divided into 19 apartments and an office.

On the ground floor, we find a wonderful two-room apartment with a spacious living area and open-plan kitchen with direct access to the exclusive 40 sq m terrace, a wonderful place to admire the unique landscape.

In the sleeping area we find the master bedroom with en-suite bathroom and walk-in closet and an additional guest bathroom.

Directly connected to the house in the basement are two rooms used as a cellar, a laundry room and a storage room. The property also includes a garage with an electric vehicle charging station.

The strengths of this project focus on three key aspects: its exclusive location, living comfort, and attention to sustainability. This privileged location represents a unique added value. Directly overlooking the lake, the Olympia complex offers a perfect balance between tranquility and accessibility, with Desenzano del Garda's main attractions easily accessible on foot.

The living comfort has been designed to ensure a unique experience. The apartments feature large spaces and quality materials, with cutting-edge home automation systems that ensure maximum control and well-being within the homes. The well-maintained shared garden and a splendid shared swimming pool overlooking the lake with an ozone purification system complete the project.

The buildings boast A4 and A3 energy ratings, ensuring low consumption and high efficiency. The geothermal system provides natural and eco-friendly heating and cooling, while photovoltaic panels provide clean, renewable energy.
